Pentagon Memorial Project

PENREN manages the design and construction effort for the Pentagon Memorial. The Memorial will commemorate the lives of 184 people lost at the Pentagon and onboard American Airlines Flight 77 on September 11, 2001.

- Memorial construction began March 2007; will complete late summer 2008
- Metal topcasts are in production: 70% (128) have been cast and nearly one-half of the total have been polished and are awaiting shipment
- 179 concrete basins have been installed - the five basins in the children's area will be placed after construction access to the center of the Park is no longer needed
- Installation of the second layer of fill dirt is complete at the north end, but continues throughout the remainder of the Park
- Installation of the Memorial topcasts have begun, and planting of the trees will begin in April.
- Memorial dedication is planned for September 11, 2008

Center Courtyard Café

PENREN is rebuilding the historic Center Courtyard Café into a year-round, all-weather facility, featuring restrooms and an indoor seating capacity of around 60.

- Center Courtyard Café will be open Spring 2008
- New café is expanded in size from 1,100 to 4,135 square feet to accommodate restrooms and an indoor seating capacity of around 60 for year-round, all-weather food service
- The café will be open daily, Monday through Friday (except holidays), from 0600-1400 hours
- After 1500 hours, the café will also provide catered functions, including everything from sit-down to stand-up receptions
- The food provided in the café will be breakfast and lunch items, seasonal favorites, with items from comfort foods to grilled cheese sandwiches, grab-and-go, and catering
- The Center Courtyard Café is part of the Pentagon's historic landmark designation for the National Register of Historic Places
